Water Audit & Water Loss Improvement Steps:

Utility to provide steps taken in preceding year to increase data validity, reduce real loss and apparent loss as informed by the annual validated water audit:

While AWA replaced most of the service laterals in Lk Camanche service area prior to 2015 the meters are still 0-20 yrs old. There is no meter replacement project scheduled nor any bench testing. Leak repair activity is pretty diligent. The redwood tanks have been identified for replacement. They have contracted with two separate firms to conduct a Rate Study as well as a water and wastewater Master Plan. This will help put the rates in place to make the necessary infrastructure changes.
